

Introduction

In this exercise, you are required to build the app outlined in the wireframe below.

Lorem ipsum dolor

Quisque ac laoreet ipsum. Sed at purus pellentesque, porta nibh nec, rhoncus libero. Maecenas non gravida mi. Donec in ipsum vel nibh venenatis faucibus. Aliquam erat volutpat. Etiam id dui congue, eleifend orci id, pretium elit. Mauris eleifend augue quis turpis tempor, et tincidunt felis dignissim. Donec quis odio sodales, fermentum metus sit amet, tincidunt velit.

Instructions

- Use the **Articles** endpoint defined here to fetch data:
<https://api.spaceflightnewsapi.net/v3/documentation>
- Using React is preferred
- Usage of Typescript is a bonus
- Using CSS utilities like Bootstrap or Tailwind is preferred
- The design can be altered in colours and font sizes
- Please keep a log of any important decisions and assumptions you make while doing this exercise
- Please submit your solution as a GIT repo (a public link to the repo is fine)
